

The overall result of the trip was 8 fish brought to the boat with 6 released and two weighed (970lb and 790lb) as part of the commercial quota. Three fish were lost due to hook pulls.

I would like to thank Alen and Troy, not only for the fish we caught but for being great guys and making it a memorable trip.

Let's see if we can resolve the draw next time (four fish were caught on the kite bait and four on the downbait) and give the standup rods a bigger bend.

Happy boats catch fish.
